

## Changes and Fix:

**Pianist & Bassist:** changed the recognition of the chord in PIANIST AUTO MODE,

**Automatic Bass:** modified basic algorithm of adjustment to the tonic,

**Reintro:** now available when style is running,

**Micro/Voicetron:** correct status (On-Off) of the MICRO 1 led,

**Styles:** corrected the Reintro after the FILL / BREAK,

**Octave - + :** in registration and footswitch the display was not correctly updated,

**Fade:** corrected the fadeout of the second voice in Locked Voice mode,

**Launch Pad:** Key Start now active on Launch Pad,

**Disk Edit:** corrected the update in the display of the selected files,

**Style/Voice:** optimized the general timing at the Voice change,

**Edit Style:** corrected the copy routine by selecting an empty USER family,

**Registration:** optimized management of pdf, txt and images in registration,

**Registration:** fixed the transition between registration with and without hold,

**Registration:** Bass Sustain status was not correctly updated in the display,

**Modeling Chords:** corrected the Voice Change of the part when assigned to modeling, (now it keeps the sound variation when saving the style),

**Date/Time:** correct storage of the language in the calendar (UPDATE key),

**Player:** removed the "automatic screen closing" timing in the PlayBar environment,
